

A top-down photograph of a whole rainbow trout, a crab, and various shellfish on ice. The trout is the central focus, lying vertically with its head at the top. It has a silvery-grey body with a prominent red-orange stripe running down its back and a pinkish-red head. It is secured with three horizontal wooden skewers. To the top left is a large crab with a purple and orange shell. To the right and bottom left are several oysters and clams, some resting on a bed of crushed ice. The background is a dark, textured surface.
